

# Telesystem UC with Webex

CONNECT. INTEGRATE. COLLABORATE.

A communications and collaboration app for calling, messaging, and meeting with anyone, from any device, in a single easy-to-use cloud application.

## Telesystem UC with Webex

Webex powers a new way of working that's centered around the work you do, not where you do it. It's time to connect your teams, secure your business, and automate processes to support a modern workforce.

### Security Built In, Not Bolted-On

Protect your teams' data and privacy with enterprise-grade security built-in from the ground up.

### Single Pane of Glass Management

Easily provision users and devices at scale, plus get analytics and end-to-end troubleshooting all in one collaboration tool.

### Real-time Translation (Add-On)

Eliminate language as a collaboration barrier with real-time translation and equal chances to participate.

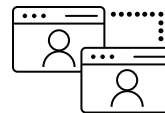

## The Future of Work is Hybrid.

With Webex, you can create secure virtual workspaces for everything and simplify day-to-day interactions with messaging and file sharing, giving your team a space for collaborating in one place with often referenced materials pinned so they are easily accessible. Sync and enhance with third-party app integrations for a seamless workflow and give everyone a voice with both synchronous and asynchronous communications for increased engagement. Start calls instantly, host high-quality video meetings with screensharing at the touch of a button, and express your ideas on digital whiteboards that colleagues can access and add to at any time.

### Calling

Make and take calls across all devices with a powerful enterprise cloud phone system—and keep colleagues and customers within reach.

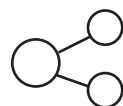

### Meetings

Drive more engaging meetings that minimize interruptions and let everyone participate equally, with immersive share, custom layouts, virtual backgrounds and breakout rooms.

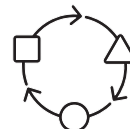

### Messaging

Keep work flowing in between meetings with rich messaging, secure file sharing, and whiteboarding for continuous teamwork.

### Enhanced Collaboration

Connect both internal and external collaborators in one, consistent space. All conversation, meetings, file sharing are catalogued in one place for easy-access.

### Integration

Link your Webex spaces with thousands of pre-built application integrations (Salesforce, Dropbox, Smartsheet, and more) to allow you to see real time updates from external applications, making your projects run efficiently.

### Intelligence

Built-in noise cancellation removes distracting background noises and voices. Take notes on action items and transcribe meetings.
